# PVHR Fractional HR Services Generating Results

"Working with [PVHR], we were able to meet our HR needs, delay hiring a full-time HR person and realize a cost savings of over \$150,000...[We're] a smaller company, we did not think we had any on-going HR needs. However, we did have a number of HR related projects we wanted to move forward."

### The Conference Board Forecasts A Rebound Acceleration In Recovery

US Real GDP growth will rise by 2.0 percent (annualized rate) in Q1 21 and 4.4 percent (year-over-year) in 2021.\* Following a lull in the economic recovery in recent months, we expect the pace of the rebound to reaccelerate as new COVID-19 infection rates decline, the vaccination program expands, and the prospects of another large fiscal support program improve.

### Hot Job Of The Month Test Engineer - Tech R&D

Our client, a worldwide expert in radiation detection imaging and technology, related instrumentation and non-destructive test equipment is looking for a Test Engineer to join its R&D team. You will be part of select group designated to develop and evaluate new materials used in homeland security, medical physics, and nuclear/high energy physics.

Your role is to support evaluation of properties in a laboratory setting. The client is looking for a motivated self-starter.

Knowledge of radiation detection and measurements is a plus.
